

Batoi Solutions for Web 3.0

Embrace Decentralization & Blockchain

batoi.com/solutions/initiatives/web-3-0

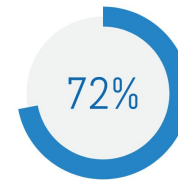

Transform the Internet with Web 3.0

Transform the Internet with Web 3.0

The global Web 3.0 market is projected to reach **\$81 billion** by 2030

72% of businesses are planning to invest in Web 3.0 technologies to drive innovation

Key Challenges in Transitioning to Web 3.0

Addressing Privacy, Control, and Decentralization Challenges

Ensuring data privacy and empowering users with data control

Moving away from centralized systems to decentralized solutions

Integrating blockchain technologies effectively

Delivering Results That Matter

Measurable Success with Web 3.0

50% Increase in Data Security:
Decentralized platforms enhance data security and user privacy

30% Boost in User Engagement: Immersive experiences create more engaging user interactions

20% Cost Savings: Elimination of intermediaries reduces transaction costs and increases efficiency

Our Capabilities

Build Decentralized & Immersive Digital Experiences

Blockchain Integration

Develop decentralized applications (dApps) and integrate blockchain to enhance security and transparency

Decentralized Identity Management

Empower users to control their digital identities with decentralized solutions

Smart Contracts

Automate transactions with blockchain-based smart contracts to ensure trust and reduce costs

Immersive Experiences

Leverage AR/VR technologies to create interactive, immersive digital experiences

Batoi Products for Web 3.0 Transformation

Tools to Drive Web 3.0 Transformation

Batoi Build

Rapidly develop decentralized applications (dApps) and integrate blockchain technology

Batoi Flex

Facilitate collaboration and connect organizations to opportunities within the Web 3.0 ecosystem

Batoi Govern

Analyze blockchain data, user activity, and transaction metrics for better decision-making

How Batoi Stands Out

Why Choose Batoi for Web 3.0?

1

Expertise in blockchain integration and decentralized technologies

2

Data-driven insights for effective management of decentralized operations

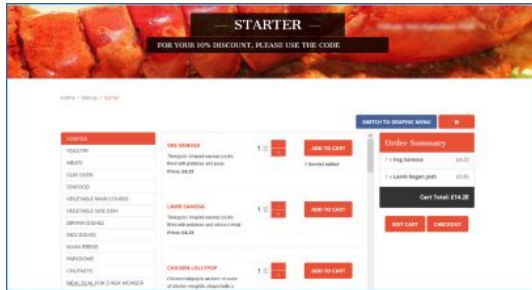

3

Tools to create immersive and engaging experiences for users

Success Story and Resources
