The Risk Is Real

73% of organisations have suffered a third-party incident in the past three years.

41% of material breaches last year traced back to a vendor.

Hidden AI, data misuse, and weak governance trigger fines and reputational loss.

Why Batoi Insight

Embedded as a ready-to-use assessment template - a standardized, repeatable survey format.

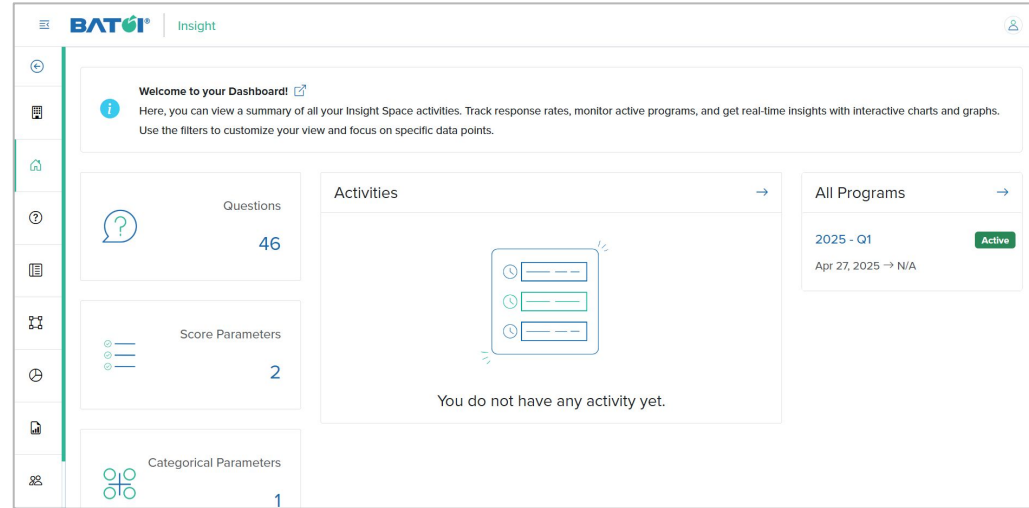

Customizable scoring and reporting logic - built on a 5-point Likert scale and weighted scoring model.

Backed by expert-developed methodology.

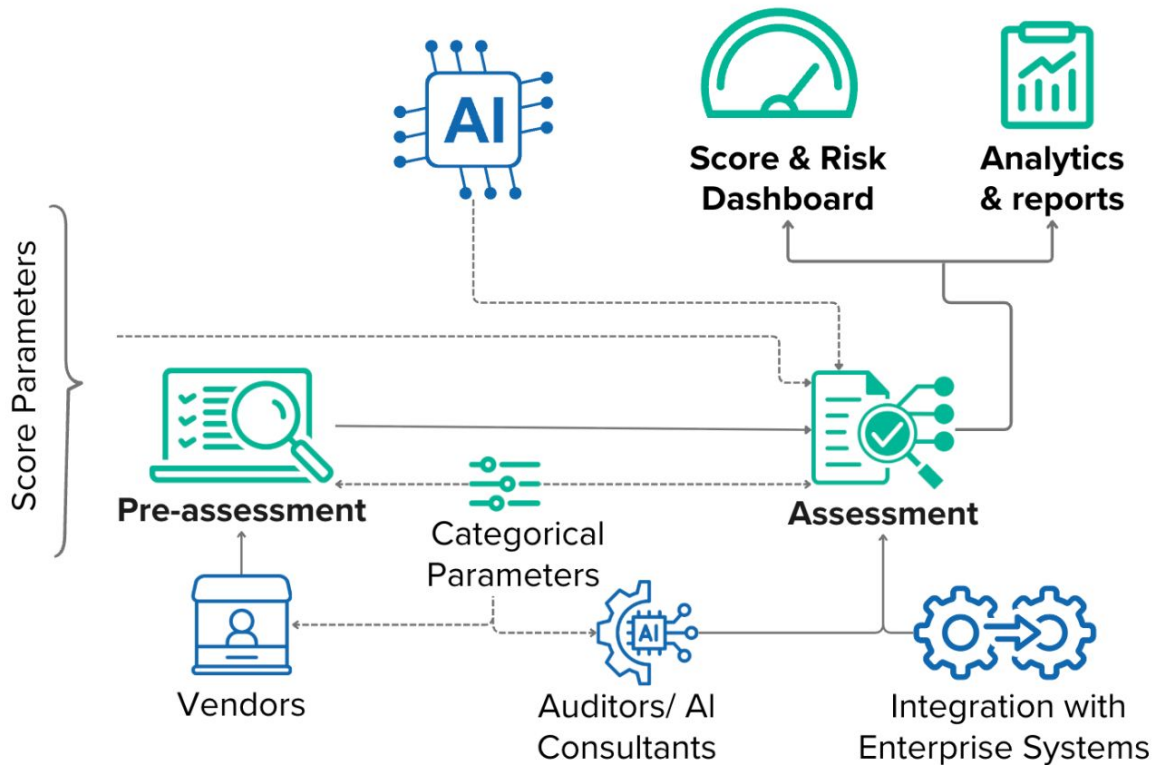

Integrates with your vendor and compliance management workflows.

Batoi Insight: Robust Vendor AI Check

What It Helps You Discover

Where and how vendors are using AI.

If customer data is being handled ethically and legally.

If vendors are compliant with current and upcoming AI regulations.

How vendors monitor, govern, and secure their AI systems.

What risks need mitigation, and how urgently.

Output That Makes Sense

- Visual dashboards and category scorecards.

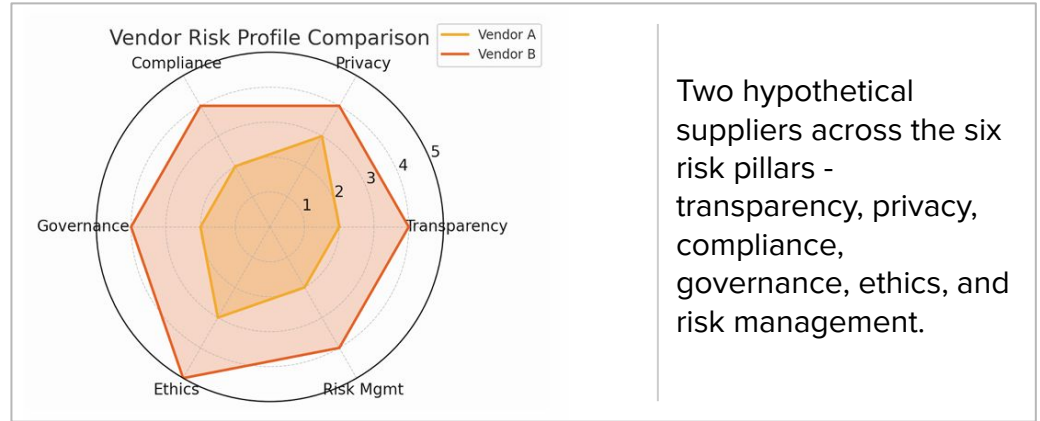

- Risk maturity matrix to prioritize attention.

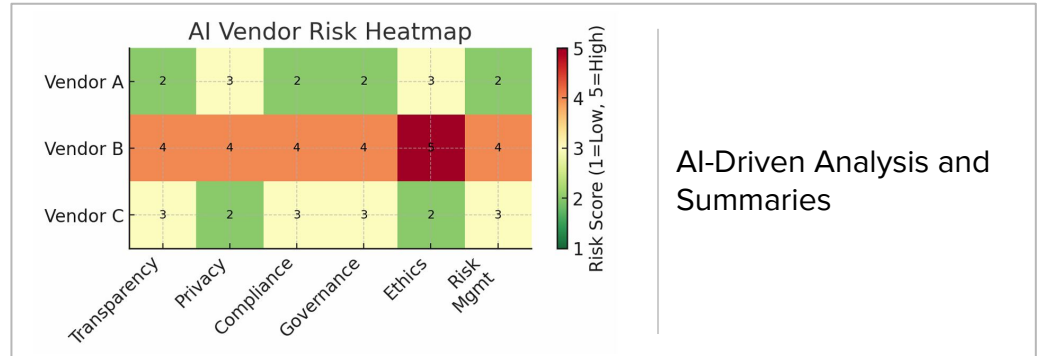

- Automated recommendations for next steps.

- A summarized risk rating (Low, Moderate, High, Critical).

Two hypothetical suppliers across the six risk pillars - transparency, privacy, compliance, governance, ethics, and risk management.

AI-Driven Analysis and Summaries

Benefits for Organizations

Demonstrate AI oversight to regulators and boards.

Build a trusted digital foundation for your customers.

Identify and mitigate hidden vendor risks.

Strengthen vendor contracts with AI-specific clauses.

Closing the Loop: Batoi Insight + BCube RegStacker

From finding to remediation

- Findings flow instantly into RegStacker as actions.
- Auto-mapped to control frameworks.
- Task assignment, due dates, evidence uploads.
- Dashboard shows remediation progress and audit trail.

Batoi Insight: Robust Vendor AI Check

Data encrypted in transit and at rest;
RBAC enforced

Operates in ISO 27001-certified clouds;
SOC 2 Type II report available

GDPR-ready; HIPAA safeguards for US
healthcare workloads

Methodology aligned with NIST AI RMF
and forthcoming EU AI Act guidance

Results and What's Next

Customer Success

Reviews that took weeks are now **done in days**

Boards gain a single risk rating per vendor for fast decisions

Mid-tier bank flagged 15% hidden AI

Roadmap

- **Q3 2025**
Continuous vendor monitoring
- **Q4 2025**
Predictive risk alerts
- **Q1 2026**
Auto-updates for new AI regulations and models.
