Who We Are

Global software and consulting company

Specialist in

Serving enterprises, growth-stage companies, and public sector bodies

Integrated model: platforms + consulting + cloud + academy

- Secure system design (DevSecOps)
- Risk-aware AI governance
- Digital sustainability and ESG-linked transformation
- Workflow and collaboration systems

Consulting Overview

We help organizations:

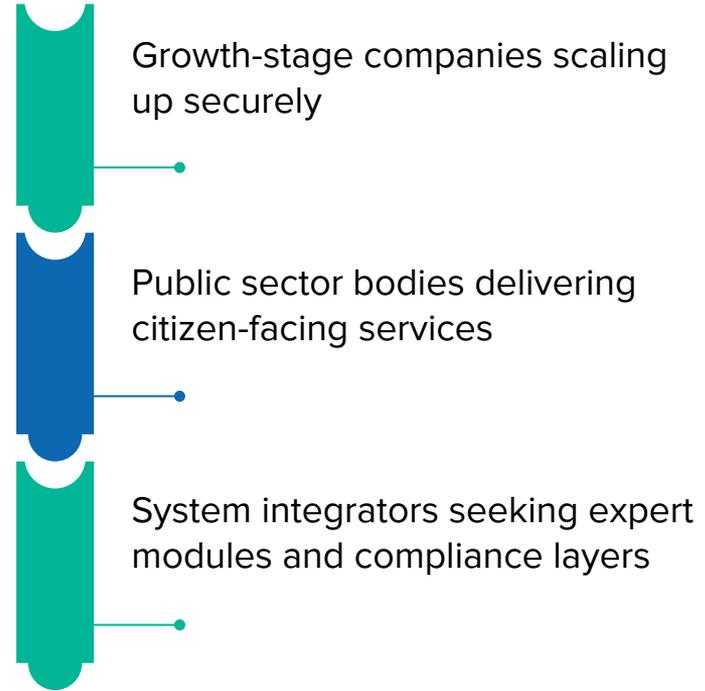

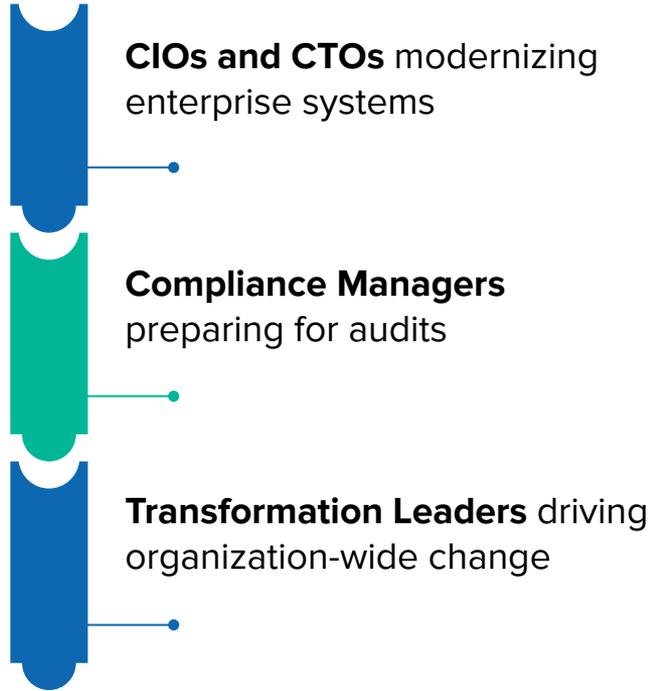

Our consulting covers **Batoi platforms** (RAD, Insight, Bridge, Portal360) and **third-party ecosystems** (Salesforce, AWS, GCP, Azure, Zoho, etc.).

Core Services

Area	Focus	Outcome
DevSecOps and Compliance	Secure pipelines, access control, toolchain audits, policy-as-code, compliance automation (ISO 27001, NIST, GDPR)	Faster, safer deployments
Workflow Automation	Process mapping, approvals, content routing, task coordination	Structured, traceable operations
AI Risk and Sustainability	Model risk audits, governance frameworks, ESG-linked IT reviews	Risk-aware innovation
Digital Transformation	Architecture review, replatforming to RAD, modernization plans	Leaner, maintainable stack
Third-Party Integrations	Salesforce, AWS, GCP, Azure, Zoho, and more	Unified, interoperable systems

Who We Work With

Delivery Models

Model	Description
Project-Based	Fixed-scope engagements (2–8 weeks)
Ongoing Advisory	Monthly or quarterly strategic guidance
Managed Implementation	The Batoi team runs deployments and workflows
Workshops and Training	Capability-building for internal teams
Integrated Projects	End-to-end solutions with third-party platforms
