

Batoi Academy

Learning and Research Arm of Batoi

Capability-building for governed digital systems

Learning, labs, and research for professionals, institutions, and researchers.

Why Batoi Academy

The challenge we address

Digital systems today are:

Complex

Interconnected

High-impact

Yet learning, practice, and research often remain fragmented.

Learning without real execution

Projects without structure or accountability

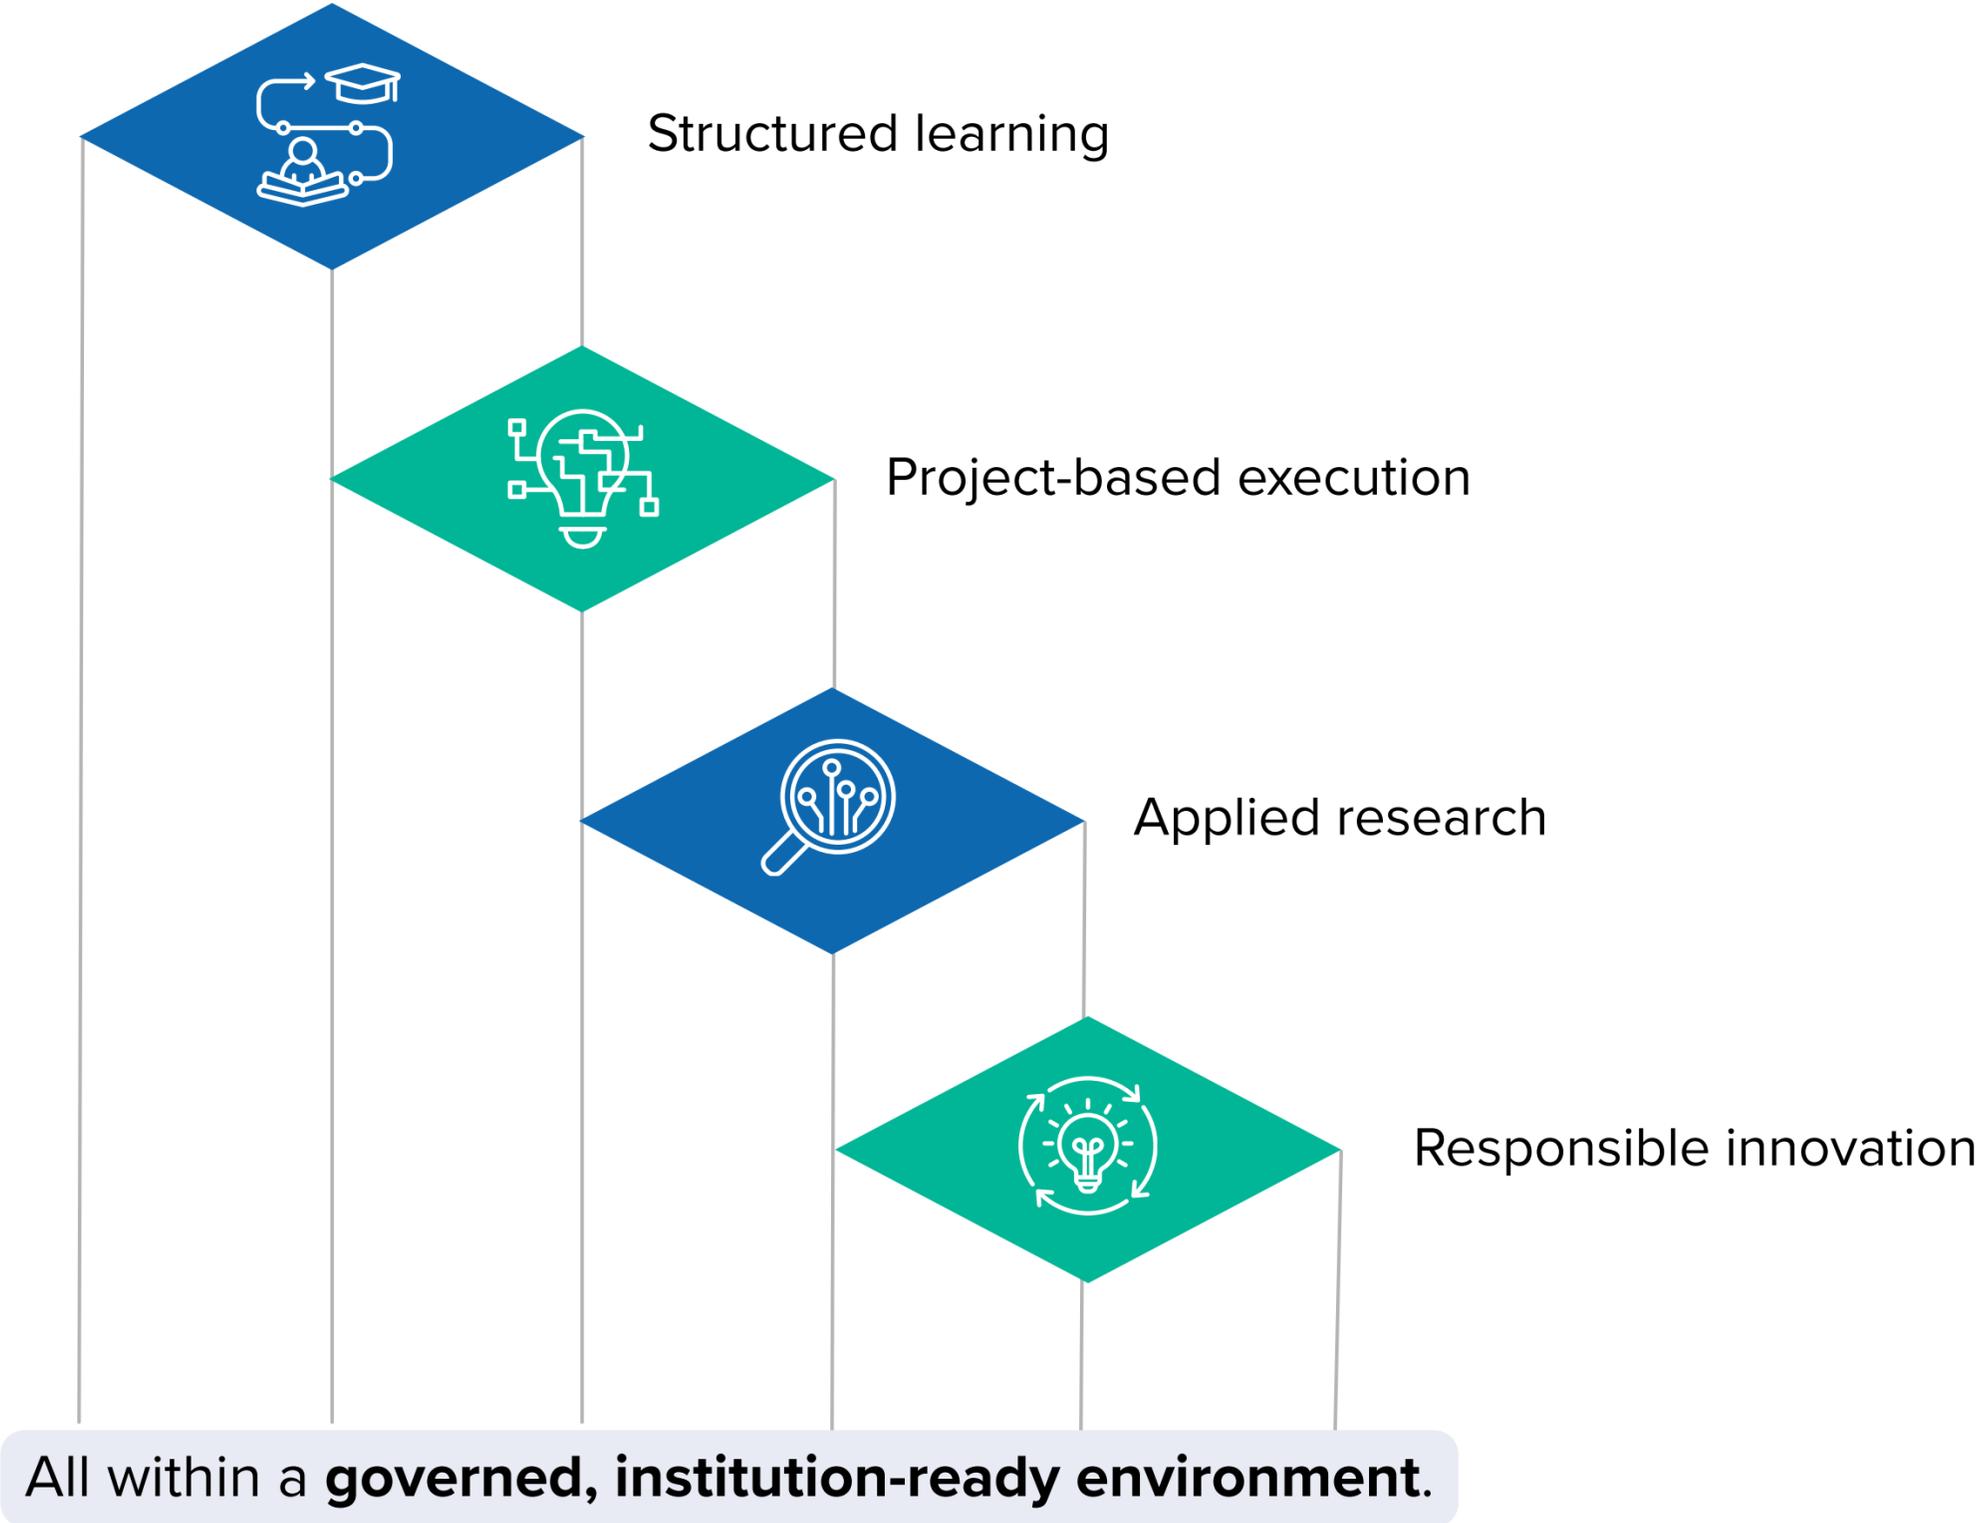

Research without connection to real systems

Batoi Academy strives to close this gap.

What Batoi Academy Is

A governed academic and practice environment

Batoi Academy is the learning, research, and capability-building arm of Batoi.

Who Academy Serves

Designed for serious work

Universities and Colleges

Curriculum-aligned programs, labs, and cohorts

Research Centers

Applied research, collaboration, and publishing

Enterprises and Public Bodies

Sponsored labs, workforce initiatives, and innovation programs

Professionals and Researchers

Capability development through learning and practice

Labs

Internships, capstones, research labs, hackathons

Learning

Programs, courses, and certifications

Research and Publishing

Articles, working papers, books, monographs

The Academy Model

**One environment.
Multiple paths.**

This ensures **continuity from learning to outcomes.**

Learning at the Academy

Structured and applied

- 01 Programs and modular courses
- 02 Online, in-person, or hybrid delivery
- 03 Assignments, assessments, and office hours
- 04 Evaluated outcomes, not attendance alone

Learning is always designed to **connect to practice**.

Digital Tech Lab

Where learning becomes execution

The Digital Tech Lab is the core execution environment.

It supports

Internships

Capstone projects

Research initiatives

Hackathons

Sponsored programs

Each lab has

Defined scope and milestones

Mentorship and reviews

Documented outcomes

Research and Publishing

Inquiry with responsibility

Batoi Academy supports applied research and dissemination through

Research Programs

Articles and Working Papers

Books and Monographs

Editorial standards

Ethical guidelines

Review and traceability

All research and publications follow

Hackathons and Sponsored Labs

Structured innovation, not one-off events

Academy hackathons and sponsored labs

Problem-led

Time-bound but governed

Mentored and reviewed

Connected to follow-on pathways

Outcomes can progress into

Internships

Capstone projects

Research programs

Long-term collaborations

Partner Workspaces

Branded spaces within the Academy

Institutions and partners operate through **Partner Workspaces**.

Carries institutional branding

Hosts programs, labs, and publications

Supports role-based access

Operates under Academy governance

This preserves identity without fragmenting standards.

Collaboration Models

Flexible, but structured

Batoi Academy supports collaboration through

Program
Collaboration

Lab and Project
Collaboration

Research
Collaboration

Publishing
Collaboration

Strategic
Partnerships

Each model defines

Scope

Responsibilities

Governance

Outcomes

Governance and Ethics

Trust by design

Governance is embedded in Academy operations.

01

Role-based access

02

Review and approval workflows

03

Academic integrity standards

04

Ethical research practices

05

Auditability of outcomes

This is critical for institutions, enterprises, and public programs.

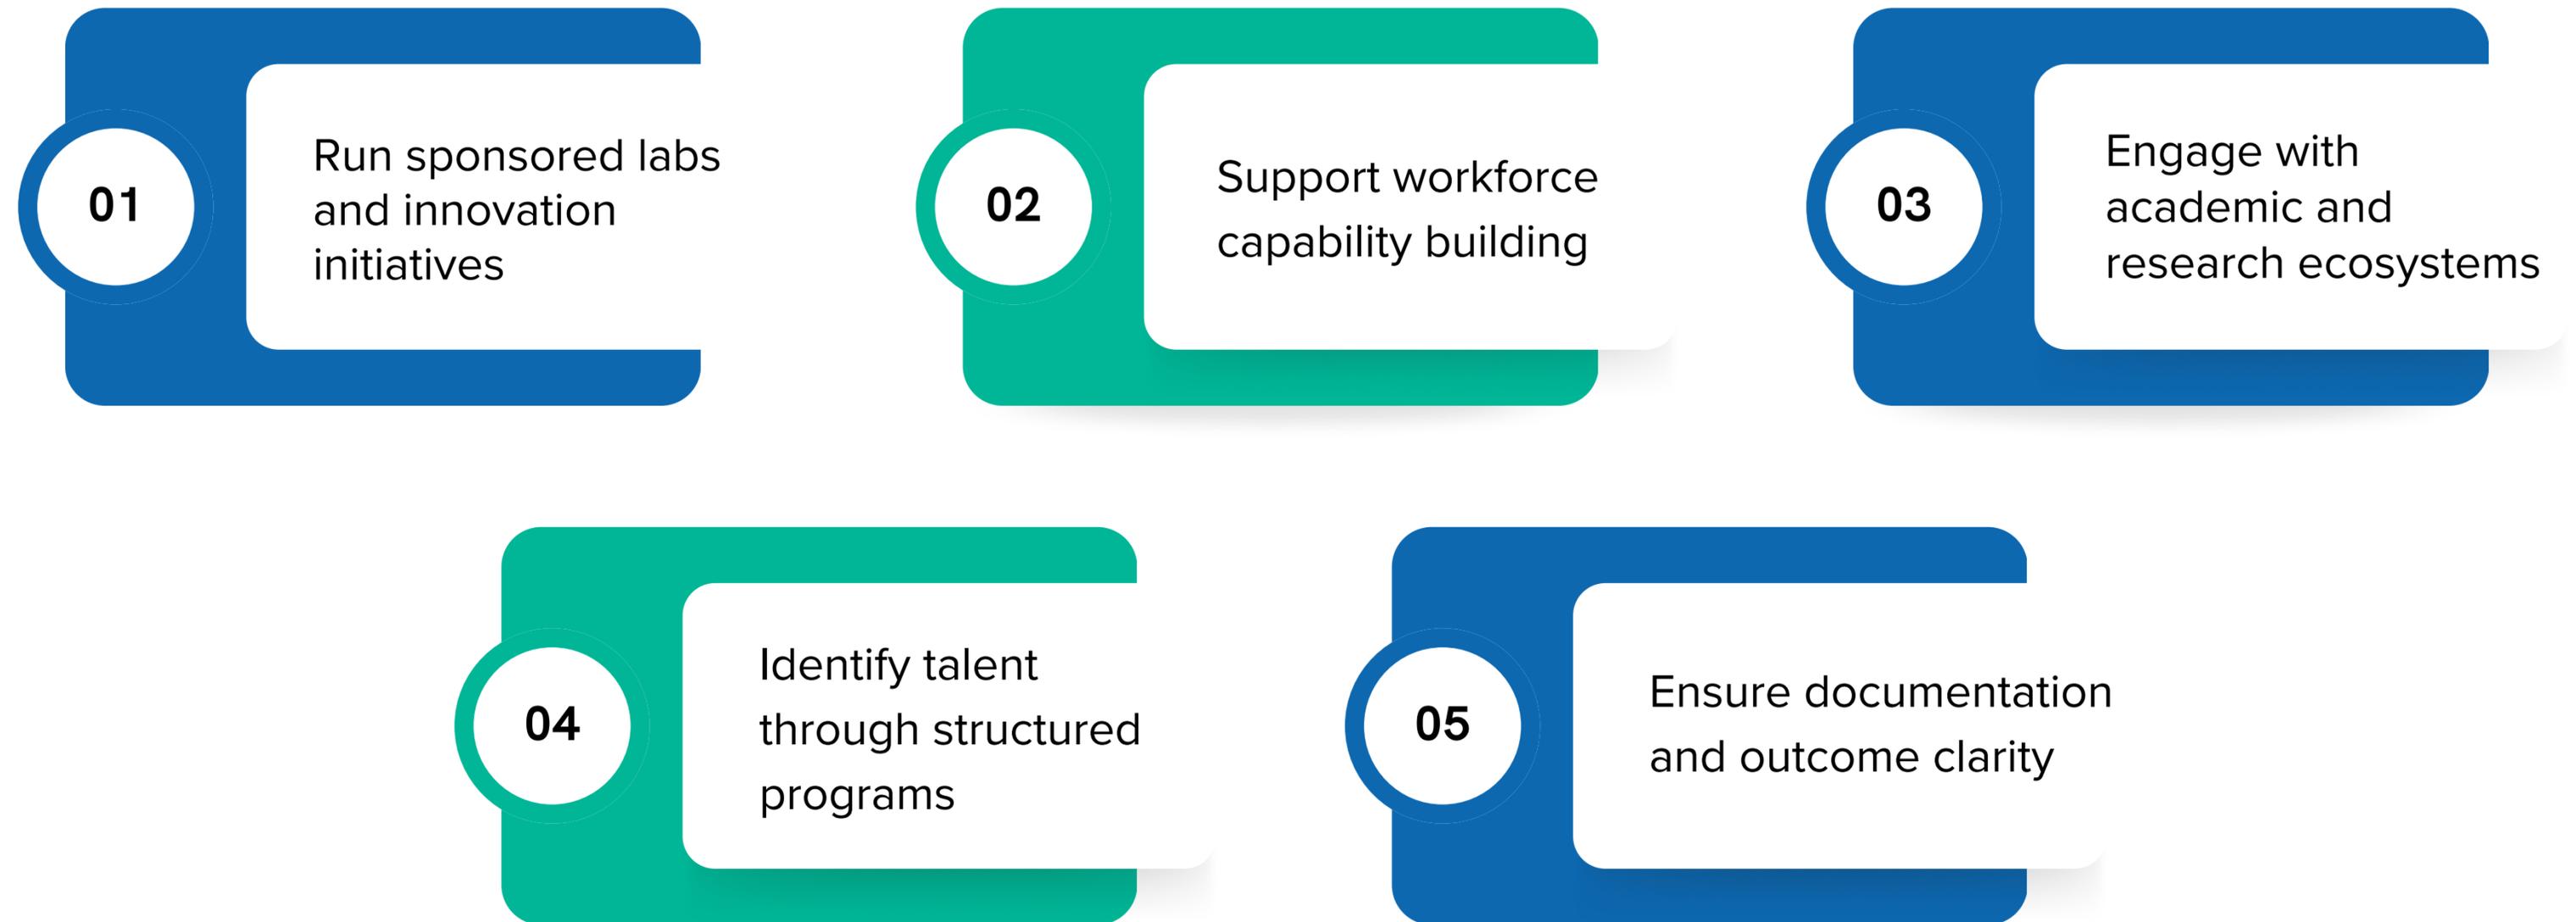

Why Institutions Work With Academy

For universities and research centers

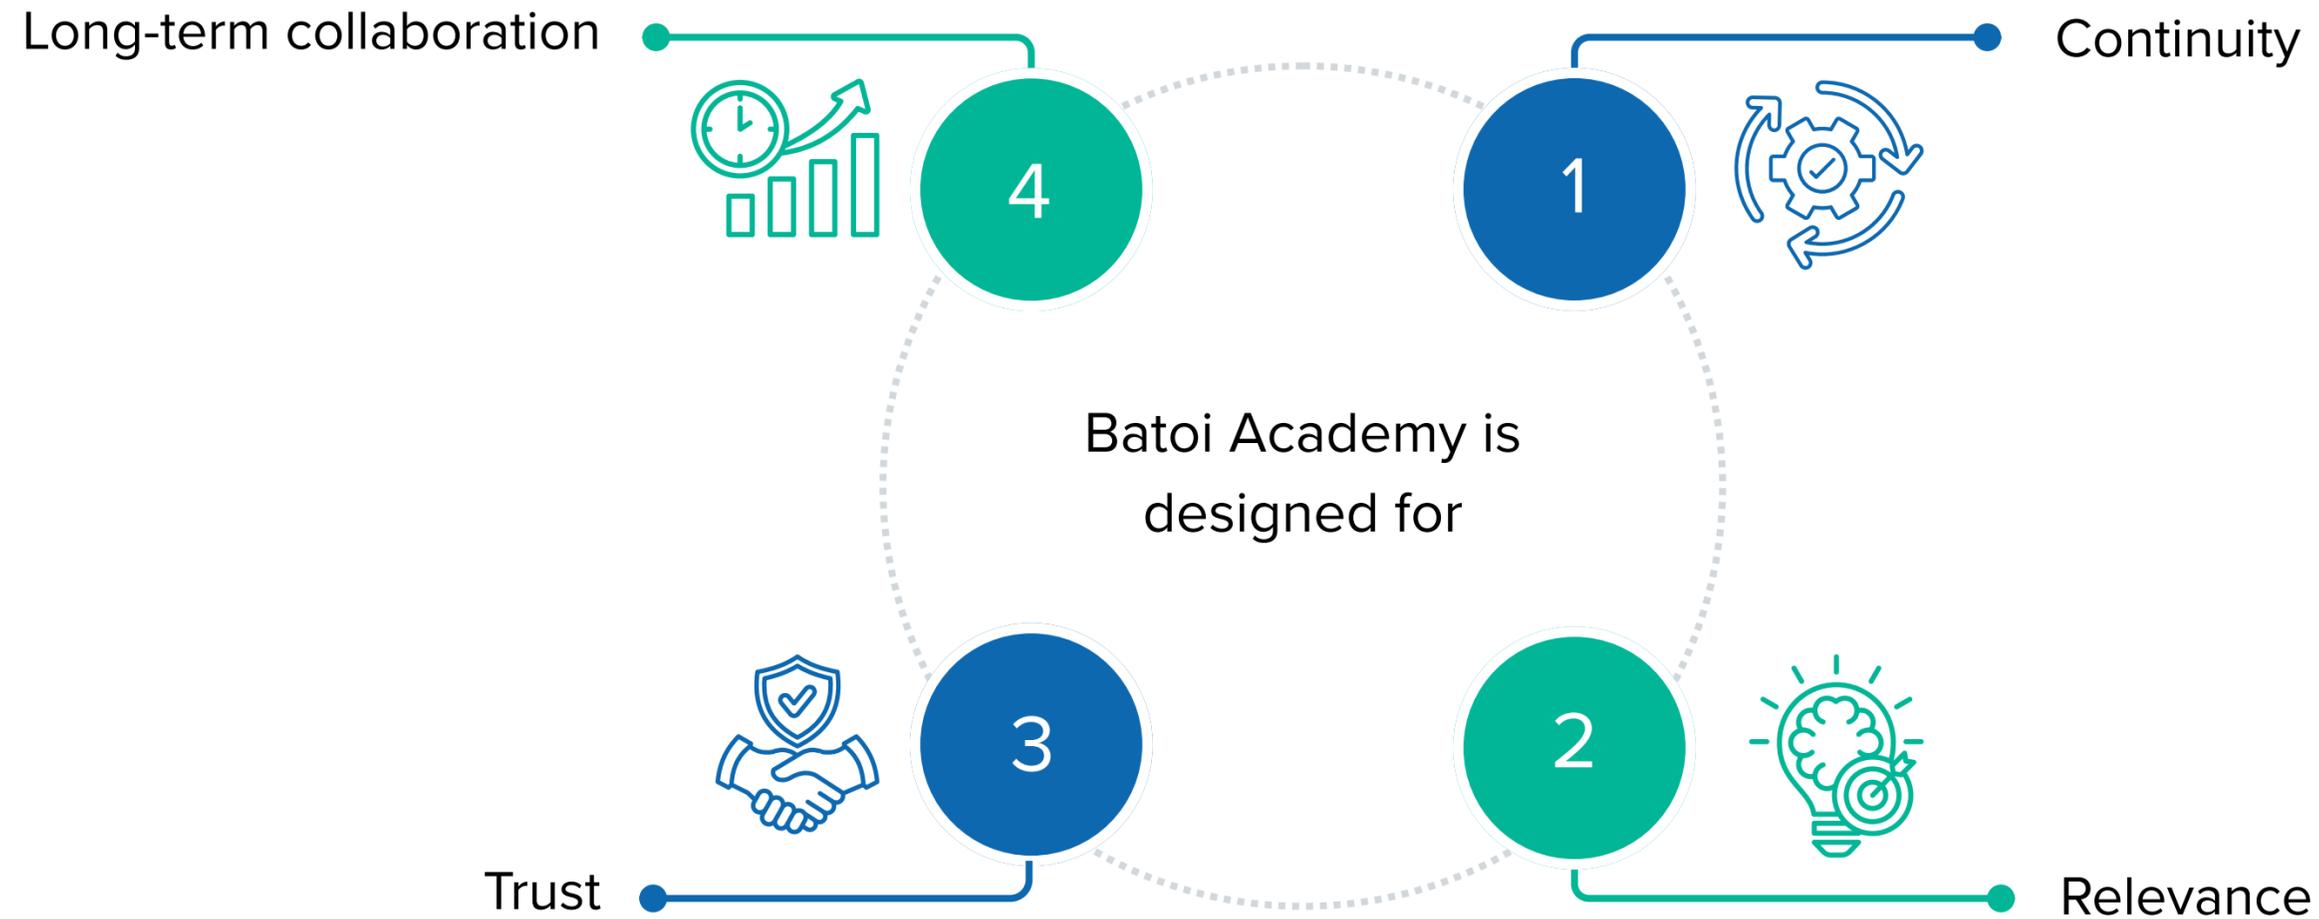

Why Enterprises Work With Academy

For enterprises and mission programs

Long-Term Orientation

Built as an institution, not a platform

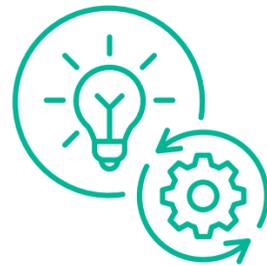

It complements existing institutional systems rather than replacing them.

Getting Started

Engage with Batoi Academy

Partner on programs or
labs

Sponsor research or
innovation initiatives

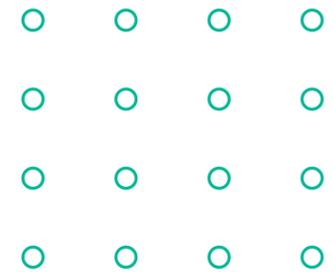

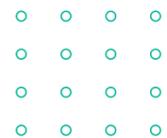

Operate a Partner
Workspace

Co-design long-term
collaboration models
