The Low-Code No-Code Landscape

Build Applications Faster with Low-Code No-Code

The global low-code market is projected to reach **\$45 billion by 2025**

64% of businesses report faster development times with low-code no-code tools

Key Challenges in Application Development

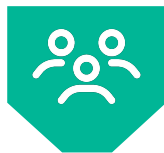

Addressing Speed, Cost, and Team Empowerment

Long development cycles hinder innovation and time-to-market

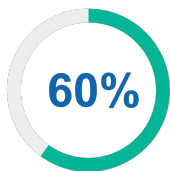

High dependency on specialized developers increases costs

Non-technical teams have limited involvement in application development

Delivering Results That Matter

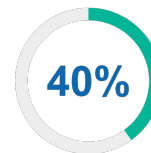

Measurable Success with Low-Code No-Code

60% Reduction in Development Time: Visual tools speed up app creation

50% Increase in Team Empowerment: Non-developers can create and modify apps

40% Reduction in Development Costs: Reduced need for specialized developers

Our Capabilities

Accelerate Application Development & Foster Innovation

Visual Development Environment

Drag-and-drop interface for easy app creation

Pre-Built Components

Use templates and modules to accelerate development

Custom App Creation

Develop tailored applications with minimal coding

Rapid Prototyping

Quickly build prototypes to validate ideas

Batoi Products for Low-Code No-Code Development

Tools to Power Low-Code No-Code Development

Batoi RAD

Develop custom applications with minimal coding using a visual environment

Batoi Bridge

Enable secure collaboration during app development

Batoi Insight

Integrate data-driven insights into your apps for better decision-making

How Batoi Stands Out

Why Choose Batoi for Low-Code No-Code?

1

Empower non-technical teams to participate in development

2

Seamless integration of data insights with **Batoi Insight** for enhanced functionality

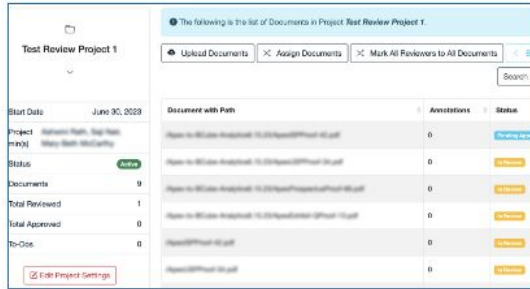

3

Fast, easy app development with **Batoi RAD**'s visual tools.
In fact, it offers more than Low-Code No-Code; it also provides full visibility of the development process and access to source code and technical documentation
